Mon - Fri 8:00 am - 5:00 pm  
Saturday 8:00 am - 1:00 pm

Location: Near Gusii Stadium, Behind Kisii Primary School

### WORLD BRAILLE DAY:

On 04.01.2021, we joined the world in commemorating the World Braille Day. World Braille Day, celebrated since 2019, is observed to raise awareness of the importance of Braille as a means of communication in the full realization of the human rights for blind and partially sighted people.

### COMMUNITY REFERRAL SYSTEM PROGRAM

In 2020, the Covid -19 pandemic greatly affected our community outreach activities and programs. The vulnerable patients and the underserved communities were mostly affected as we were not to carry out community outreach programs in large crowds through camps to avoid the spread of the Covid 19 virus. This has necessitated us to come up with new strategies and solutions to meet our vision of eliminating preventable blindness through the Community Referral System [CRS] program.

The Community Referral System that we are piloting is a door-to-door eye screening initiative program to identify cataracts and other eye conditions. This process is conducted by trained cataract finders who undertake door to door visits in various counties across the country to screen the patients. The screening is done using a phone installed app known as Peek Acuity. Peek Acuity is a smartphone-based vision check app developed by eye experts to allow anyone to check visual acuity using only an Android smartphone. Upon screening, they then are guided and referred to the hospital for further treatment.

*Cataract Finders from Left Mr. Douglas Onsongo and Mr. Julius Ateka*

*Mr. Onsongo examining a patient at Gachuba Division*

Ongoing two - day CRS training at the hospital

Mr. Paul Kiage showing Mr. Onsongo how to use the visual acuity app.

LET US HELP OTHERS  
TO SEE BETTER
