

# KISII EYE HOSPITAL

## DECEMBER 2021 NEWSLETTER

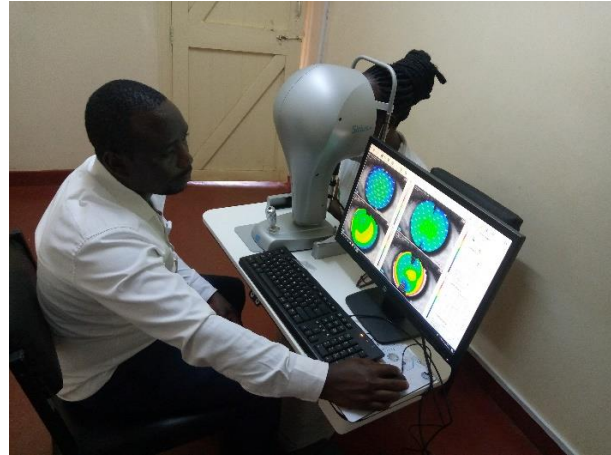

## CORNEAL TOPOGRAPHY MACHINE

We render our utmost gratitude to the Fred Hollos Foundation for the tremendous support towards the purchase of the Corneal Topography Machine. Corneal Topography is a non-invasive medical imaging technique for mapping the anterior curvature of the cornea and the outer structure of the eye. It is a diagnostic machine that shows the different stages of Keratoconus disease that affects the cornea.

## OUI INC PARTNERSHIP

We continue to thrive in the great partnership with the OUI Inc with the major aim of overcoming world blindness using innovative medical devices that diagnose various eye diseases including trachoma and cataract. The month of December was graced by the visit of Mr. Shintaro Nakayama (Vice President of Global Business-OUI Inc) and we were excited to receive the donation of frames and anterior segment camera.

## COMMUNITY OUTREACH PROGRAM:

Our utmost gratitude goes to Fred Hollows Foundation for the total support we have received towards our community outreach programs. In this month of December, we held an outreach at Kipwastuiyo Subcounty Hospital in Kericho County. We were able to screen 177 patients whereby 43 patients were admitted for cataract surgery in our hospital.

## COMMUNITY REFERRAL SYSTEM (CRS):

We continue to excel in our CRS programs whereby the cataract finders deployed in the beginning of year 2021 due to Covid 19 pandemic restrictions. In the month of December, the table below shows thriving results.

Name of Region	County	No. of House holds	Cataracts Advised	Cataracts done	Patients Referred to base hospital
North Masaba Sub County	Nyamira	34	10	1	10
Nyamira North Sub County	Nyamira	127	67	30	137
<b>TOTALS</b>		<b>161</b>	<b>77</b>	<b>31</b>	<b>147</b>

# MSAKU (MEDICAL STUDENTS ASSOCIATION OF KISII UNIVERSITY) LAUNCH

Kisii Eye Hospital was a proud partner towards the launch of MSAKU-Medical Students Association of Kisii University. We congratulate the Kisii University for this great opportunity and we look forward to nature the medical students in the future through fellowship and training.
