

JANUARY 2026 NEWSLETTER

Strengthening Clinical Training Through Elective Placement

In January 2026, Innovation Eye Centre Ltd is pleased to welcome Ratumo Caroline, a fourth-year student pursuing a degree in Comprehensive Ophthalmology and Cataract Surgery at JKUAT University. She will be undertaking a six-month elective placement with us, gaining hands-on clinical experience and mentorship from our team of specialists. During her stay, she will actively participate in patient care, outreach programs, and surgical support services. We are excited to support her professional growth and look forward to the positive contribution she will make to our patients and the institution.

Bringing Sight Closer: Innovation Eye Centre's January Outreach

In January 2026, Innovation Eye Centre conducted outreach eye camps at Kegogi Health Centre and Kiango Dispensary to improve access to quality eye care services. The camps provided comprehensive eye screenings, treatment for minor eye conditions, and identification of patients requiring specialized care. As a result of these efforts, 13 successful cataract surgeries were performed, restoring sight and improving the quality of life for the beneficiaries. We appreciate the support of the host facilities and the community for making the outreach a success.
