Innovation Eye Centre Conducts February Eye Camps

In February, Innovation Eye Centre conducted several outreach eye camps aimed at improving access to quality eye care in the community. Through these initiatives, the medical team successfully performed 138 cataract surgeries, restoring sight and improving the quality of life for many patients.

These camps are part of the hospital's ongoing commitment to prevent blindness and provide affordable eye care services to underserved communities.

Innovation Eye Centre Welcomes Delegation from Japan's OUI Inc. and The University of Tokyo

Innovation Eye Centre recently had the honor of hosting Mr. Shintaro Nakayama, Chief Operating Officer of OUI Inc., together with Ms. Fuko and Mr. Daisuke from The University of Tokyo.

During the visit, the delegation engaged with ophthalmologists, clinicians, and hospital staff at Innovation Eye Centre, sharing insights on innovative technologies and their potential to improve access to quality eye care.
