Innovation Eye Centre Expands Eye Care Outreach in Kisii County

Innovation Eye Centre Limited continues to expand access to eye care across Kisii County, having conducted hundreds of community eye camps to help reduce avoidable blindness.

The outreach programme brings essential services directly to underserved communities through screenings in schools, churches, and community centres. Services include eye examinations, treatment, spectacles, and referrals for surgery where necessary.

Through this initiative, Innovation Eye Centre remains committed to making quality eye care accessible to communities across Kisii and reducing preventable vision loss.

Elderly members of the community gather patiently, waiting to be screened during a community eye camp.

Nurse Aid Lillian Ong'ono checks a patient's intraocular pressure (IOP) as part of routine eye care at the hospital.

Expanding Our Role in Eye Care Training

Innovation Eye Centre was pleased to host Dr. Michael *Ng'ang'a* , who has been undertaking a four-month Glaucoma Fellowship at the Centre.

The fellowship has provided an opportunity for Dr. *Ng'ang'a* to gain valuable practical experience and strengthen his knowledge and skills in the diagnosis and management of glaucoma. Through exposure to specialist clinical services, surgical procedures, and patient care, the programme contributes to the development of highly skilled eye-care professionals.

Innovation Eye Centre is accredited as a COECSA Regional Training Centre, reflecting our commitment to strengthening eye-care capacity across the region.

As a regional training centre, we continue to make an increasing contribution to the education and professional development of eye-care professionals. By providing hands-on clinical training and opportunities for specialist learning, Innovation Eye Centre is helping build the expertise needed to improve access to quality eye care.

Dr. Michael Ng'ang'a, Glaucoma Fellowship Trainee, with Dr. Dan Kiage, Chief Medical Director, at Innovation Eye Centre, Kisumu Branch.
